BELLEVILLE, SATURDAY, MAY 4.

City and Vicinity.

MARCH-OUT.—The 15th Battalion will have a march out on Monday night.

See G. W. Hutchinson's Springless Truss and Supporter advertisement in another column of this paper.

MARKET.—The muddy roads and threatening appearance of the weather caused a diminution of the attendance on the market this morning. Still there was a good supply.

PROCEEDINGS OF PICTON.—The assessment of the town of Picton for 1878 looks up to \$87,000, an increase of \$28,000 over last year's assessment. Population, 2,861, an increase of 19.

HEAVY RAIN.—There was a small deluge of rain last night, the downfall lasting about four hours. Growing grain and pastures are not likely to suffer for lack of moisture for some time to come.

MERCANTILE INSTITUTE.—The annual meeting of the members of this organization is to be held in their library on Tuesday evening, 14th inst., for the election of officers and transaction of other business.

ESCAPED.—We are informed that the manweeney, who was taken from Belleville to the Lunatic Asylum in July last, escaped on the night of the 2nd inst., and has not since been heard from.

EARLY SEASON.—As an evidence of the early season and rapid growth, Mr. John Gerow, of Huntington, exhibited to-day a couple of stalks of rye headed out. It is seldom such growth is seen as early as the first of June.

OPERA HOUSE.—Texas Jack and company will appear in the Opera House on Tuesday, Wednesday and Thursday evenings. Their performances are thrilling, giving a realistic idea of the wild life of the plains.

DEEDING.—A hurried reading yesterday of the Parliamentary report led us to state that the Minister of Public Works said that a Government dredge would be employed in dredging the St. Lawrence. This statement, the dredging here will be done by contract.

PRINCE EDWARD COUNTY RAILWAY.—The County Council of Prince Edward have refused the offer of Mr. A. Manning, of Toronto, to go on with the Prince Edward Railway, if an extension of time were granted, by voting down the proposed introduction of a By-law granting an extension.

REUNION IN HEAVEN.—Will friendship contracted on earth and severed at death be renewed and perpetuated in Heaven? Will we remember and recognize in another life the acquaintances and social relations of this life? The sermon to be preached in the Congregational Church to-morrow night will be devoted to the consideration of this impending question.

THE "SCOUTS' NEWS".—A monthly journal, the name of which indicates its field, has been established in Montreal and has reached its third number. It is ably edited, neatly printed, and will no doubt be of service to the cause of education in the Province of Quebec. Published at 31 St. Urban Street, Montreal, at \$1 per annum.

ROBERTS BY A SNEAK THIEF.—We are informed that yesterday evening the residence of Mrs. Wait, in Duff's terrace, Great St. James Street, was entered during her temporary absence of a few minutes by a sneak thief and \$25 in cash stolen. The thief must have been well acquainted with the premises, because the money was deposited in what was thought to be a safe place.

THE PARISH GUIDE.—This is the name of a small church paper to be published monthly by Rev. John R. Jones, in the interests of the Christian Church and the church people in general. The subscription for the year has been placed at the low rate of 50 cts., to simply defray cost of printing. The paper will be conducted on a liberal basis, and in time be enlarged if it meets with the necessary support. First number issued in June.

INTERPROVINCIAL.—The value of the Interprovincial from a national point of view, and its great utility to the commercial interests of the Dominion are being proved daily. Locally we are beginning to see the fact that Messrs. Corby & Sons have opened a branch of their business in St. John, N. B., and we are now pleased to state that among the students attending the Ontario Commercial College in this city are young men from Nova Scotia and the Atlantic provinces, attracted either by the national reputation which the College has attained. These facts prove that Confederation is more than a name, and that gratification to our patriotism, as well as productive of benefit to our enterprising city.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LONDON, May 3.—A Constantinople despatch gave it is denied that Sultanul-Pasha will shortly be liberated. Baker Pasha has been appointed to the command of the First Army Corps, leaving the lines of Constantinople and Makia.

The Lords of the Admiralty, who have been looking upon the Russian fleet as a private trophy, it is understood with reference to the completion and despatch of their powerful ironclad squadron for particular service.

The Agency Russia.—No news of the negotiations is expected for five or six days, as fresh efforts to an understanding are now pressing.

MORNING DESPATCHES.

NEW YORK, May 4.—The Times states that Minister Thornton believes there will be no war. He had had interviews with the Russian ambassador from Europe, and also of another Russian expedition for the United States from Copenhagen for the purpose of maintaining Russian claims on the coast of Alaska.

The Herald says that the British legation is fully apprised of the intended despatch of three additional Russian steamers from Rev. of the Atlantic, intended for service in the North Atlantic, which will put it at some northern U. S. port, while other two will proceed to San Francisco, whence it seems to be making ready to take advantage of the scanty protection of British interests on Canada's shores. It is asserted that assurances have been given to Irish leaders that Ireland will be assisted in a revolution in case of war, also it is understood that enlistment in Canada will be offset by a Fenian raid on the border.

AMERICAN DESPATCHES.

MINNEAPOLIS, Minn., May 4.—Only three bodies have been identified. The following is the valuation of the mine destroyed: Washburn \$500,000; Humboldt \$500,000; Duluth \$500,000; Galena \$500,000; Pottsville \$500,000; Littleton \$500,000.

SHELBYVILLE, Ind., May 4.—A man named Wagner has been trying to starve his daughter, who is the owner of property, of which he is in possession, and might have been killed by the daughter, who is now in the hands of the law.

NEW YORK, May 4.—Washington special: The Tribune says that in mysterious activity among the laboring men of the District of Columbia, which was noticed lately. It is reported that a general strike is anticipated in August.

ST. LOUIS, Mo., May 4.—The strike of the miners is still in progress. It is alleged, has exposed serious discrepancies between the books of the mine and bureau reports.

NEW YORK, May 4.—Wm. H. Vanilder, a clerk of New York, was killed by falling down stairs last night.

Officer Martin was overpowered by rowdies at 77th St. last night and shot one of them fatally.

TAMPA, Fla., May 4.—The coal regions are alive with communist looting. On Thursday two attempts were made to wreck trains.

AFTERNOON DESPATCHES.

MINNEAPOLIS, Minn., May 4.—Beside the elevators burned, Pottsville's planing mill was destroyed with 1,000,000 feet of lumber. Loss \$75,000, the mill company's elevator, loss \$50,000, and several small machine shops. The explosion demolished the round house and did other damage. Total loss estimated at not less than \$200,000. Several unmanageable bodies have been found. The number of dead is estimated at 16. Inquiry concerning the first theory that the cause of the explosion was the lighting of mill dust and subsequent ignition and explosion of inflammable gases.

LONDON, May 4.—Notwithstanding the hopeful renewal of Russian concessions, it cannot be said there is any positive change in the principle of the question in dispute. The misfortune seems to be that the Russians consider a question of form, England regards as a question of principle. England demands the placing of the treaty before the Congress for unreserved discussion. Russia, it is said, refuses to give way on that point.

Corbett & McCloy, builders, of London, Pottery, Scotland, and Westgate-on-the-sea, have failed. Liabilities \$700,000. Assets, up to one thousand shares, valued from \$25,000 to \$40,000 each.

Several cotton mills at Preston have resumed work, the operatives accepting the reduction.

CONTRIBUTING, May 4.—A portion of the Russian army has embarked at San Stefano.

NEW YORK, May 4.—Arrived, the German from Liverpool.

Marine Notes.

A Buffalo paper says that several vessels put into that port after unloading at Port Folio and other Canadian ports to escape a shortage of 200 per ton. The vessels were cleared to \$300 for the season to those vessels clearing from one American port to another, and stopping at foreign ports to load and unload.

The Kingston News says: the second raft of the season left Garden Island yesterday afternoon in tow of the "Hiram A. Calvin," a schooner of 100 tons, bound for the United States. The vessel had been in the harbor for some time.

The Lake Superior trade has been very active this spring. Twenty-two steamers had arrived at Duluth during April, mostly with cargoes and freight from Canadian ports for Manitoba, Northern Minnesota and Dakota.

TO THE PUBLIC.

THE attention of the public has been lately drawn to the fact that a man who is in a position to import direct has a decided advantage in the market. One who has to buy from second and even third hands, is at a disadvantage. A working knowledge of this is seen in the quantity of money to be considered importers who are not.

In this connection we again take the liberty of stating emphatically, that our firm are the only importers of the Province. This is shown in this section of the returns. The Custom House, where all goods imported must be entered. Thus, of all the Dry Goods imported at Belleville this Spring, two-thirds were entered by us, while the remaining one-third made up in great part of American goods imported at Belleville and surrounding country. These goods are sold at the lowest prices, and the quality of all the imported goods of English and American origin is of the best. We have a large stock of goods, and more especially in our Fancy goods, such as Millinery, Lace, Flowers, Feathers, &c.

Our customers, besides obtaining a superior class of goods, profit by the saving thus effected on the original cost of their goods. This saving is very considerable on all kinds of goods, and more especially in our Fancy goods, such as Millinery, Lace, Flowers, Feathers, &c.

Further saving to our customers, as well as to ourselves, is secured by the strictly Cash system which we recently adopted, and continue to carry out.

The large quantity of goods sold each season, and the continuous increase in our trade, testify unambiguously to the satisfaction given.

TO THE PUBLIC.

THE attention of the public has been lately drawn to the fact that a man who is in a position to import direct has a decided advantage in the market. One who has to buy from second and even third hands, is at a disadvantage. A working knowledge of this is seen in the quantity of money to be considered importers who are not.

In this connection we again take the liberty of stating emphatically, that our firm are the only importers of the Province. This is shown in this section of the returns. The Custom House, where all goods imported must be entered. Thus, of all the Dry Goods imported at Belleville this Spring, two-thirds were entered by us, while the remaining one-third made up in great part of American goods imported at Belleville and surrounding country. These goods are sold at the lowest prices, and the quality of all the imported goods of English and American origin is of the best. We have a large stock of goods, and more especially in our Fancy goods, such as Millinery, Lace, Flowers, Feathers, &c.

Our customers, besides obtaining a superior class of goods, profit by the saving thus effected on the original cost of their goods. This saving is very considerable on all kinds of goods, and more especially in our Fancy goods, such as Millinery, Lace, Flowers, Feathers, &c.

Further saving to our customers, as well as to ourselves, is secured by the strictly Cash system which we recently adopted, and continue to carry out.

The large quantity of goods sold each season, and the continuous increase in our trade, testify unambiguously to the satisfaction given.

GOING BACK ON THEIR RECORD

It would puzzle the "statistical hand" himself, told of calculation, as to the number of times that Messrs. Mackenzie and Blake have, since their backs upon the platform, turned their backs upon the people. The Premier declined to make any arbitrary division of the sum, as that might be inconvenient. Mr. Blake said in regard to expenditure of the sum that he had never opposed a penny in which he had no confidence. Mr. Mackenzie said that he had no confidence in the House, pointed out that the House had no confidence in the Premier, and that the Premier had no confidence in the House.

At about midnight on Saturday (Friday) Tansy, who keeps a grocery and boarding house on the north side of the railway crossing on the Canlon road, was so seriously injured by a stone thrown by James MacLaughlin, that his life is considered to be in danger. From various sources we learn that MacLaughlin, who is a native of New York, was in the habit of visiting Tansy's place, and that he was in the habit of drinking at Tansy's place.

Mr. Hotchkink's treatment is practical, rational and economical. Its object is to relieve and cure a curable. It is based upon the principle of the support of the spine to the comprehension of a very light person, that a truss without steel springs and without a heavy board is required. It is Unibelted as well as Varicose, at all advance ages respectively from 65 to 92 years of age and will stand the test against all other trusses. Trusses for children as well as for men, women, old and young, and for the infirm, (trifling) and for the early, late, day, before the crowd get it.

Sacred Concert and Organ Recital

The sacred concert and organ recital at St. Andrew's Church last night was attended by a numerous audience, and on point of excellence proved quite up to the expectation. The choir was composed of good voices, well trained, and the whole was fairly rendered, whilst Mr. St. Andrew's organ soloist, Mr. J. M. St. Andrew, was an organist of superior skill as an organist of superior skill.

There were in all twelve items on the programme, namely three choruses, and a recitative and chorus by Mr. Philpott and the choir, which was well rendered by Mr. Thomas, and Messrs. St. Andrew, Price and Reid, all of which were pleasing, especially the beautiful second song, "The Lord is Thy Father," which Mr. Thomas rendered with sweetness and power. The four organ solos were of a nature to display the full power of the instrument, which was greatly improved by the addition of a trumpet stop, lately made. The most pleasing of these selections were perhaps the well-known overture to "Mazurka," and the "Overture to the Marriage of Figaro," which was then sung, which execution of the difficult selection which it fell to their lot to interpret being generally satisfactory. Just before the singing of the national anthem (which, per se, was splendidly done) the Rev. Mr. McLean, Pastor of the church, returned thanks to the ladies and gentlemen from other churches who had assisted the choir, also to those present for their attendance.

"God Save the Queen" was then sung, and the audience dispersed, well pleased with the entertainment.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LONDON, May 6.—Two hundred Russian left Pargan on Saturday, and are re-creating the Danube. Supplies are being hurried forward.

A Russian correspondent writes from Craiova that the Russian Government is said to be the company "voluntarily" the army twenty million rubles. The war will not suspend unless paid immediately.

A Vienna correspondent says:—Although it is thought that the war will not last long, it is merely for a short time, it is believed to be in connection with important negotiations. Should he succeed in bringing about a solution he will likely to look upon the war as having qualified himself as the successor of "Gortchakoff." It is believed the Czar will appoint Gortchakoff's successor as long as possible.

A Paris correspondent has received information that well informed persons at St. Petersburg are convinced that Count Adlerberg will succeed Gortchakoff. Such an appointment would mean the postponement of reforms and the subordination of everything to the Czar, of whom Adlerberg is the more instrument.

MORNING DESPATCHES.

LONDON, May 7.—Seventeen wagon loads of corpses have arrived at San Stefano. It is thought that the present result of negotiations will depend on the last chance of a Congress being held.

A collision has occurred between the Turkish and Russian at Boulair. The disturbance was promptly suppressed. The Russian insurance is spreading. There has been some severe fighting.

NEW YORK, May 7.—The Herald's St. Petersburg special states that the Emperor of Russia announced in the salon of the Czar on Sunday that an understanding with England was now certain and peace assured.

AFTERNOON DESPATCHES.

ELLENBORO, Me., May 7.—The visit to the Combs of the agents of the United Pacific and Lake Shore Railroad, was made upon the rumor that the Russians were destined for the Pacific. They could get no hint from the officers of any such intention. The two men, who are supposed to be agents of the Evans & Co., have not yet been seen by the authorities. The only trace of British espionage is the Vice-Com. The feeling here is so intensely pro-Russian, that no one seems disposed to speak against the Czar, or following the officers about. He expressed some surprise that the United States did not have a cutter on the coast. The fact is there is nothing to be feared. There is a German steamer flying the German flag lying at anchor, with only passengers on board. The ship is very high in the water, and has only a few persons on board, and is evidently enough for a vessel. The ship papers show the Russians as passengers. The cabin passengers are classed as pleasure travelers, and the storage passengers are classed as business travelers. They are all very polite, and are very well behaved. A Specimen of Consistency.

With that beautiful consistency which is so peculiarly their own, several newspaper organs of the "organized hypocrisy" oppose the election of Sir John A. Macdonald and other Conservative gentlemen in the ground, amongst others, that they are not residents of the constituencies for the representation of which they are candidates, whilst at the same time warmly urging the election of the Conservative candidates who are similarly situated. In order to show how thoroughly hypocritical is this cry of "non-residence," we give herewith a list of the names of the Conservatives who reside outside of the constituencies which they seek to represent:

Name.	Constituency.	Residence.
Hon. E. Blake	South Prince	Kingston
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal
Hon. J. A. Macdonald	North Prince	Montreal

This list of twenty-one Grit candidates (omitting Col. Higginbotham, of North Wellington, and Mr. Thomson, of Welland, who are members of the present Parliament, and are residents of their constituencies, but do not seek re-election, who seek to be elected for constituencies in which they do not reside, embraces aspirants for election to the Commons only.

The Grit members of the Ontario Legislature who reside out of their constituencies are:

Name.	Constituency.	Residence.
T. Ballantyne	South Prince	Kingston
J. Bell	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal
H. A. Crooks	North Prince	Montreal

It is only necessary to mention these facts, in order to make apparent beyond a doubt the utter contempt for consistency and fair play that animates those writers and speakers who urge the election of Grit non-residents without objection on that score, whilst making non-residence in the case of their opponents an unpardonable sin. The whole matter is a dodge on the part of the Grits, and so transparent is it and so stale has it become, that it needs no repetition that it has almost ceased to have any effect. The people have come to recognize the principle that the mere fact that their representative resides a few miles outside the territorial boundaries of the constituency is a matter of no consequence whatever, so long as he faithfully represents their interests and does not run counter to their political preferences.

A reform contemporary once said of this self-same cry, "It is impolitic and unwise, and more especially is it so in the case of such men as (speaking without political bias) Sir John A. Macdonald, Mr. Mackenzie, and many other able men on both sides of the House, who from long residence in or near to their constituencies are fully as well acquainted with local interests as any local man could be, and by their talents and position are better to represent them. We must not be misled by the absurd cry of 'non-residence.' It can effect nothing, unless it be to show the unblinking hypocrisy of those who give utterance to it, thereby injuring themselves and their cause in the estimation of people whose opinion is worth having."

Not a "Worn-Out Issue."

The Globe, in its review of the session, alludes to the extravagance, corruption, and jobbery of the Government in connection with the Pacific Railway, as a "worn-out issue." This is not true. The people have yet to pronounce upon the steel rails business, the wasteful and unbusinesslike disburse upon the Georgian Bay Branch, the Fort Francis lock and telegraph line, the notorious jobbery in connection with the Lake Superior terminus (known to fame as the "Kaministiquia job") including the purchase of the "Neching" and "Neching" as well as upon the payment of large sums of money and the "looming" of 227 tons of rails without the authority of Parliament, together with other offences in connection with that vast undertaking. These matters as these do not become dead or worn-out issues until they have been passed upon by the people. It comes with excellent grace from a journal which has urged the "Pacific Standard" to "take upon which the people pronounced judgment five years ago, to "speak now" of matters which must come before the people within a few weeks for their decision, as "worn-out issues." The Globe is too easily appeased by the intended effect.

BREXIT WAR VESSEL.—The first steel vessel of war in Her Majesty's fleet, the *Conestoga*, has just been launched, and it is understood that she is merely the precursor of many similar ships. Some time back Sir Joseph W. Wright, the greatest machinist of the day, was in his opinion that iron-clad ships had reached the point of alacrity under their enormous mass of armor, which threatened to bury them, just as the weight of old were studied by the weight of their armor, and that we were bound to return to first principles by building steel ships of armor, lighter and more powerful. His prediction is now likely to be fulfilled, and that not a day too soon.

MORE HYPOCRISY.

Referring to a recent visit of Sir John A. Macdonald to Montreal, the Ottawa correspondent of the Globe writes on the 10th: "Sir John's attention to local affairs in a Province with which he has no personal connection is a curious illustration of the consistency of Conservative denunciations of the combination of Federal with Local affairs." The correspondent's attempt at a "hit" in this connection is unfortunate, as it lacks truth to sustain it. The denunciation of the combination of Federal with Local affairs did not originate with Conservatives, and it is not true that they have "denounced" it. The denunciation of such a combination was begun by the Grits when the late John Sandfield Macdonald, then Premier of Ontario, who was a non-resident of the Province, was elected to the Ontario Cabinet "hunted in company" last year, delivering addresses at gatherings held in the interest of the two Governments. It was not until the election of Sir John A. Macdonald to the Dominion, viz. in spite of their opposition to the subject, Ministers of the Ontario Cabinet "hunted in company" last year, delivering addresses at gatherings held in the interest of the two Governments. It was not until the election of Sir John A. Macdonald to the Dominion, viz. in spite of their opposition to the subject, Ministers of the Ontario Cabinet "hunted in company" last year, delivering addresses at gatherings held in the interest of the two Governments.

THE FARMER MOVEMENT.

A despatch from Montreal on the 10th says: "The Mayor has received a private letter from Haver Hill, Mass., to the effect that great preparations are being made in New England for a Fenian raid on Halifax, St. John, N. B., and other Canadian cities."

COUNTERFEIT BILLS.

Counterfeit ten dollar bills on the Ontario Bank have been passed in the neighborhood of Sarnia, and it is said that there are several representing the value of twenty thousand dollars concealed somewhere in the neighborhood. The three bills passed are pretty fair representations of the real numbers all commence with the figure 33.

POLITICS IN MANITOBA.

A Winnipeg correspondent writes as follows to the *Mail*: "Politics are quiet here just now. It is only in Selkirk that the Government will be able to find a champion, and, as there is a fixed determination to keep the head of the railway and Kitchin line ring out of the House, the contest will center in the action of Selkirk. Dr. Schultz has never been so strong in his constituency as at present; and Mr. Morris is all right for Marquette. Mr. Debus has received great encouragement from the election of Frenschner."

EXPORTATION OF LIVE STOCK.

The exportation of live stock from Great Britain is assuring mammoth proportions. The Montreal *Star* of the 10th inst. says: "Messrs. J. & P. Price are shipping 98 head of fat cattle by the S. S. 'Erebus' of the Montreal Line, for the port of London. The 'Waldensian,' 101 head; 'Phœnix,' 135 head; 'Corinthian,' 110 head; 'Caledonia,' 110 head. Each of the above steamers have also been engaged for 24 horses."

ACCIDENT TO AN ALLAN STEAMER.

EXPLOSION!

Ship on Fire—Several Passengers Injured.

THREE LIVES LOST.

LONDON, May 10.—The Allan Line steamship *Sardinian*, for Quebec, is on fire at the entrance of Lough Foyle, harbor of Londonderry. It is reported that an explosion of gas occurred, and that every effort to save the vessel proved ineffectual. There were about 400 passengers. A few were injured, one fatally. The captain telegraphed to Londonderry for accommodation for 400 passengers, and two tenders were sent to assist in removing them. The *Sardinian* put into Lough Foyle to receive the Irish passengers.

MONTEBELL, May 10.—The explosion on the steamship *Sardinian* occurred in the forenoon. Some of the passengers were injured, and taken to Derry Hospital. The attempt was made to save the vessel, but was unsuccessful. Some passengers were reported to have left the ship, but possibly they may be saved. Four hundred passengers have been taken to Londonderry.

LONDON, May 10.—Many of the injured by the explosion on the *Sardinian* are not expected to recover. The vessel is on fire, and the passengers are in the fore part of the vessel are out of all help.

It is believed that more of the passengers of the *Sardinian* were killed than first stated. Her passengers were chiefly German and Italian, but there were also some English and Scotch emigrants.

THE *Monitor*, May 11.

The *Monitor* has received the following cable dispatch:—The steamship *Sardinian*'s sparce exploded in Montreal harbor.

The ship took fire and was not extinguished and sank in thirty feet of water. Several passengers were injured. All of the cabin are safe. Two of the crew were killed.

An attempt will be made to float the ship next week.

The *Pacific* sails from Liverpool on Sunday to embark the *Sardinian*'s male and passengers.

LATER.

LONDON, May 11.—Several of the passengers on the *Sardinian* were burned about the head and face, and some had arms and legs broken. The agents of the line have no particulars. Three of the injured were reported to be dead. Two bodies of the crew were recovered. Some passengers are reported missing. Among the passengers are forty orphan children, destined for domestic service in America. The fire brigade from Derry went to the vessel. Their efforts were unavailing. An attempt was made to beach her on McKinnon's bank, but she was finally scuttled and filled with water.

LATER.—All the saloon passengers are safe. Four persons, stowaways or members of the crew, are missing.

Dominion Parliament.

FIFTH SESSION—THIRD PARLIAMENT.

Prorogation of Parliament.

SPEECH FROM THE THRONE.

OTTAWA, May 10.

His Excellency the Governor-General prorogued Parliament this afternoon with the following speech from the Throne:—*Gentlemen of the House of Commons:*

I am glad to be able to relieve you from further attendance in Parliament, after a somewhat long and laborious session. I shall take the necessary steps at an early day after the close of the financial year to give effect to the measures now before the House, and to the audit of public accounts. I shall call the attention of Her Majesty's Government to your address, praying that all of British America, except Newfoundland, shall be the Imperial crown declared to be a part of the Dominion of Canada. I rejoice that during the term of my administration this final step to consolidate British interests on the continent of America has been taken with so much unanimity and that heretofore the Dominion Government will, under Her Majesty, exercise undisputed sway over the northern half of this continent.

I am happy to be able to state that, pending the final settlement of the question of boundary, the constitution of the Dominion will be maintained, and the Government of the United Provinces, of Ontario and Quebec, and of the Dominion of the St. Lawrence. The large sums you have appropriated for the works of intercolonial improvement will be expended with the most rigid regard to economy and the greatest benefit to the people, and the expenditure will be nearly complete within the next financial year. The settlement of Manitoba and the North-West Territories has been proceeding this year with an unexampled rapidity, and the efforts of my Government to obtain railway facilities with Winnipeg at a very early day should be successful. I anticipate next year will be a large increase to the population. It is especially gratifying to me that the Dominion Government will, under Her Majesty, exercise undisputed sway over the northern half of this continent.

Cow By-law.

To the Editor of the *Intelligencer*.
SIR,—Can you inform me if we are to have any pounds or penalties applied to us, for the vagrant cows and animals now running at large on our streets, contrary to law? I understand that, although a new by-law has lately been introduced in regard to the kind of cow that has not been reported, and is therefore in force, still prohibiting such vagrancy and rendering the animals liable to pounds and the owners to be fined.

I with another man I employed to assist me, drove six cows out of my garden a few days ago, and undertook to pound them, but after spending the whole afternoon endeavoring to get them to the supposed pound, we had to leave them at large, as the person whom we thought was poundkeeper informed us he was not appointed as such by the city authorities and would not take them in, in his term of office having, as he understood, expired at the end of last year, when our town became a city.

I think it is high time something was done in the matter of clearing our streets and gardens of these nuisances, and if our Aldermen are so kind as to send a committee to the city authorities to give the sum of government to others the better.

Yours, &c.,
J. B. GARDNER.

He read the first article, entitled "Punch,"

which is a very good one, and in which this

consequently probable sketch is based in

City and Vicinity.

BOARD OF EDUCATION.—The Board will

hold its regular monthly meeting this

evening.

THE "KATIE GRAY."—This yacht left

yesterday for Kingston, where she will

spend her outfit.

NEWS.—The Kingston News says: "We

know, however, to-day that on the 14th day

of May, 1878, there was a foot of snow on

the ground in this city."

COURTS.—Members of the Quelling Club

were reminded that the annual meeting will

be held at Messrs. Diamond's law office on

Thursday evening at 8 o'clock.

COLD.—The weather last night was very

cold for the season. The temperature was

below the freezing point, and it is to be

expected that further damage was done to

gardens and orchards.

THE MARKET.—The tenders for the

contract will be received by Mr. Ling-

ard, Chairman of the Market Committee, to-

day at noon on Thursday. On that day the

Committee will meet to consider the tenders

in.

WATER WORKS.—This important subject

engaged the attention of the City Council

last night. It was decided that no outline

be made for preliminary surveys and ex-

aminations until it has been determined to

enter the enterprise of introducing a

general system.

BROT OF TORONTO AND KINGSTON.—The

annual meeting of the Presbyterian Synod

of Toronto and Kingston, to-day at St.

Andrew's Church, Kingston, begins. The

opening sermon will be preached by the

Rev. Dr. W. Rogers of Oshawa, after which

the Synod will be constituted. The session

is expected to last about two days.

DAVEY CROCKETT.—The St. Catharines

Journal says of the performance of this

man, which is to be produced at the

Opera House to-morrow evening by Mr.

Frank May, the eminent actor, and com-

pany: "Davey Crockett is a entirely differ-

ent from the Texas Jack border hero as

an well be imagined. There are no Indians

to murder but there is human character to

portray in all its subtle phases."

THE COLLEGE.—The "Hungry

party" is true to its reputation. A very

large number of the faithful are candidates

for the office of Collector of Customs, which

was rendered vacant by the late death of

Mr. Dickson, and many applications were

made yesterday. Some statistics com-

piled the number of applicants at upwards

of two hundred, but that competition must

have been exaggerated.

CITY INCORPORATION.—The City Council

have acted wisely and in accordance

with precedent, in taking counsel with the

people as to the celebration of Dominion

Day, and the incorporation of Belleville into

the City. The Mayor has been requested to

call a public meeting for the purpose of

considering the matter, and doubtless satis-

factory arrangements will be made for

celebrating a celebration worthy of our young

and growing city.

MR. MAY'S BIRTHDAY.—The usual

feast has been made by the City Council

for the birthday of the Mayor, and for the

celebration of the forthcoming anniversary of

His Majesty's birthday, and the sum of

\$100 was also voted for the preparation of

flowers for the purpose of giving a few of

came under the manipulation of the repre-

sentatives of the cows in the Council. It

was really refreshing to listen to Alderman

Holmes's eulogy of the old by-law and his

expressions of surprise at the storm of dis-

cussion which surrounded the columns of the

city press of late.

ARRIVED ON.—The steamship Polaris

arrived out to-day.

POLICE COURT.—The only business in

Court this morning was the further adjourn-

ment of the case of Wamnamaker vs. Wall-

bridge.

TUE DRIVE.—The first of the logs of this

season's cut are now at the house. The 2nd

drive has been one of the most favorable

ever known here.

"DAVEY CROCKETT."—The programmes

for this performance distributed about the

city are dated for Thursday only. This is

the mistake. The Company play both

Wednesday and Thursday evenings.

DEATH.—Patrick Lawlor, formerly a

police constable, died yesterday of a fever,

which was a good officer for about two

years a sufferer, and the tidings of his death

will be received with sorrow by many.

LONG MEETING.—The last three meet-

ings of the City Council have averaged

three and three-quarters hours each, and

the last meeting was the longest of the

series. The programme for business

either. If the majority of certain members

of the Council could be restrained, the

meetings might be commenced earlier, say

at 4 o'clock in the afternoon.

JUNIOR CRICKET CLUB.—A Junior

Cricket Club was opened here last night

with a good membership. The officers are

as follows: President—Gilbert Post; Cap-

tain—W. Linklater; Secretary—B. F. Dick-

son; Treasurer—B. Diamond. This Club intend

accepting the challenge issued on behalf of

the "Our Boys" Cricket Club of Niagara.

HAROLD G. PLAINFIELD ROAD RIVER.—

The Grand Trunk Railway advertises a

cheap excursion to Niagara Falls to com-

mence the races by train, to start from the

station here at 7:30 a.m., arriving at Toronto

at 1:00 p.m., and leaving Toronto to return

at 8:00 p.m. Fare for the round trip

\$2.50. In the event of the race being

postponed, excursions will be allowed the

privilege of staying over and returning

by regular train on their return tickets

without extra charge. Should the races

come off as advertised, tickets will be good

for return by excursion train only. As the

weather is now settled, no doubt the race

will come off to-morrow.

LOCAL NEWS.—The Alliance meeting

held in the Baptist Church last night was

freely attended and proved very interesting

and enjoyable. Mr. John Forin, Chair-

man of the Alliance, presided. After the

prayer, he gave some prayer offered and

the Scriptures read, Rev. J. R. Jones de-

livered a fine address on "Christian Lib-

erty." The title of the address was very

skillfully employed to teach the two prin-

ciples contained in the text. "Owe no man

anything, but to love one another." The

first part of the address contained a refer-

ence to the leading historic violations of

the "Law of God," and the second part

embraced a statement of the influence of

charity at the present and the indications

of its future domination. This part of the

address of the evening, was supported

by remarks from the Revs. Messrs. Bur-

ton, Turnbull and Cochrane. The next

meeting of the Alliance will be held in

John Street Church, on Monday evening,

June 10th, when the Rev. Alex. Turnbull

will deliver an address on "Missionary

Labor in connection with the Baptist

Church."

Dear Sir,—The Oglethorpe (N.Y.) Ad-

vertiser, says:—"Arrangements have been

perfected of late whereby a new line to the

west has been opened up in connection with

very pertinently—"At this season of the

year, when the little song birds, the

birds of plumage, and other insectivorous

birds, are busy preparing their nests and

whirling their sweet song, to nearly every

one of our readers who has boys of that

particular inquisitive age above mentioned,

protect the harmless birds:—"It is not

lawful to shoot, destroy, wound, injure,

or attempt to do so, nor to take, capture,

MIDNIGHT DESPATCHES.

LONDON, MAY 13.—A Legation despatch

says:—"In the Council this afternoon Sir

Stafford Northcote declared to fix a day for

the discussion of Mr. Chamberlain's plan

concerning the Government's foreign

policy. The Chancellor said, in answer to a

question whether the troops in Europe do not

that the Indian force were never included in

the Act fixing the number. The British ar-

a complete cessation of hostilities between

the Russians and the Turks at Batoum.

A Constantinople despatch reports the out-

break of hostilities between the Russians and

Turks at Batoum.

BEHAVIOR, THURSDAY, MAY 16.

City and Vicinity.

Quoting from the annual meeting of the above club will be held at Moore, Diamond's law office this evening.

THEATRE'S SALE.—The County Treasurer's adjourned sale of lands for taxes to take place on Monday, June 17th, at 2 o'clock p.m.

CATTLE.—The cattle trade with the United States continues, says the Kingston News, there being numbers sent over almost every day. Seventy-four head were the contingent for today.

FIRST MARKS OF THE SEASON.—The first larvae made of the season between the Ohio and the Atlantic, will be played on the oldest ground, to-morrow, Friday afternoon. Game to commence at 3:30 p.m. sharp.

CUSTOMS.—Mr. Wolfe, of the Customs Department, in temporary charge of the office, is appointed, Mr. Newburn, Inspector of Customs, Port, who is in the office, desires us to state that the Department has no supervision over Customs Brokers, who are not officers of the Department. The broker's office, will, however, be removed from the Customs House.

KNIGHTS OF CANADA, CAME NO. 2, MOIRA.—A regular meeting of this camp was held on Saturday evening, May 11th, 1878, when the following officers were elected for the ensuing year:—H. Mitchell, W. C.; J. Murray, W. D. C.; F. W. Henton, W. G.; W. Schryver, W. T. J. Hollingsworth, W. S.; W. Salisbury, W. Sen. P.; J. Reed, W. Jun. P.; J. Brider, W. Sentinel; J. R. Burks, W. Chap.

"DAVE CHUCKER."—The performance of this beautiful drama by Mr. Frank May and company at the Opera House last night was simply perfect. Mr. May's representation of the noble yet untutored blackwoodman was picturesquely natural and altogether one of the best impersonations ever seen on the Belleville stage. Miss Josephine Lawrence was also excellent as "Eleanor Vaughan," the heroine, and all the other characters were ably filled. The management was thorough in every respect. Mr. Mayo will appear again to-night in the same drama, and doubtless will be greeted by a crowded house.

ANOTHER VAIN TRAIL.—The Magazine Standard says:—"Everybody, so far at least as public utterances go, commends temperance per se, and deprecates drunkenness, and therefore, we may conclude that the second work of liquor has given wider satisfaction than the first, but the first work, experience, still much greater improvement than to be reached before it can be truly said that liquor is better than prohibition. There have been a good many drunken men upon the streets, but the of ferative language has been less, and quarrelling by no means so deplorable. Perhaps we are getting nearer a normal condition."

ALBERT COLLEGE.—University Examinations begin on Wednesday, May 20th, continuing twelve days. Trinity Term Examinations begin on Wednesday, May 20th, continuing twelve days. University Examinations of Albert College Grammar School begins on Sunday, June 10th, at 11 a.m., at First M. E. Church, by Rev. J. B. Jacques, Ph. D., D. D. Annual Convocation of the Union, on June 16th, Sunday, 4 p.m., in College Chapel. Address before the Alumni Society, by the Rev. B. W. Lane, M. A., in the College Chapel on Monday, June 17th, at 8 p.m. Meeting of the Alumni Association on Tuesday, June 18th. Annual Convocation of Alexandra College on Sunday, June 18th, 8 p.m., in the College Chapel. University Convocation on Wednesday, June 19th, 2 p.m.

HARPER'S MAGAZINE FOR JUNE, 1878.—Harper's Magazine for June, which it has that interest in the dramatic and subjects treated which usually distinguishes its numerous illustrations and surprising in its variety. Love of the picturesque will read with interest the exquisite and extended paper, contributed by S. G. W. Benjamin, "Among the South Seas," showing charming bits of coral and sandy scenery between hills and Plymouth. Miss Mitchell's animated description of "Hedgehog," the "Enchanted Isle." Mr. Benjamin's article opens with a line picture by Bricher, illustrating the gathering of Irish men in the salt marshes of Salsburgh. Another illustration by Bricher, presents the old wall on the Westworth place—the original of the "Old Oaken Bucket" another, by Moran, illustrates the wisdom of later in the vicinity of Plymouth, another by Abbott, a very effective picture, illustrating an incident of the war of 1812. Those interested in ceremony will be delighted with Mr. Sikes' paper on the celebrated Delft Ware, with thirty fine illustrations.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

London, May 15.—A Vienna correspondent says the latest telegrams state that the insurgents occupy two Balkan passes.
 A Vienna telegram says:—It is said the Russians are throwing up entrenchments near San Stefano, and among them with Krupp guns, which does not look as though they be involved in the speedy success of the negotiations.

A St. Petersburg correspondent reports that the Scheremetevs have been interviewed with those directing foreign affairs. He leaves towards the middle of the week, and will probably arrive in London on Tuesday.
 The statement yesterday of Prince Arzberg and Herr Tass in the Austrian Reichsrath and Hungarian Diet respectively are well received in Vienna, and make a very favorable impression in London. It is believed they indicate beyond doubt Austria's intention to oppose Russia, so that if England is compelled to go to war also will be necessary, and more circumstances than were recently hoped. It is also believed that Austria's attitude at this moment will have a favorable influence on the negotiations at St. Petersburg. Herr Tass, the Hungarian Premier, in the course of his speech said the Government had no intention to act against, but rather in concert with, Turkey in the Balkan Peninsula, and he could not in detail what they wanted the money for, but he might state broadly that it was necessary to secure the frontiers on the northern, southern, and eastern frontiers, and to increase the number of troops, so as to be safe against any surprise. A part of the money has already been used, and more measures necessary to secure the Carpathian passes are already in hand. Regarding affairs in Romania, Herr Tass said the reports were rather exaggerated, but he did think it necessary to take precautions in Transylvania. It is expected that the money will be voted in the Reichsrath by about fifty majority, and that the matter will be settled. The delegations will meet about the 20th instant to discuss the Imperial budget, when Count Arzberg will make a further statement of his policy.

AFTERNOON DISPATCHES.

London, May 16.—Tattersall & Co., wool and cloth merchants, have failed. Liabilities £29,000.

BEFIM, May 16.—Disputing accounts have been received from St. Petersburg. The prospect is again threatening. The Panislavic party are once more gaining the ascendancy.

MARCHESTER, May 16.—A strong impression prevails that recent outrages attributed to striking cotton operatives perpetrated by the lower portion of Blackburn, who are notorious for ruffianism.

LONDON, May 16.—A despatch from St. Petersburg says the Russian papers are full of news about the volunteers. Subscriptions for fitting it out are coming in from all parts of Russia. The sums raised seem very small for the purpose, but they are double the amounts contributed from the same sources to the Crimean Committee for the relief of the sick and wounded during war.

AMERICAN DISPATCHES.

MARTIN, Wis., May 16.—The State Board of Charities are investigating charge against the Principals of the State Institute for Deaf and Dumb Children, of making immoral assaults upon female pupils.

MARION, Cal., May 16.—A strange woman at Merchants' Hotel, on Tuesday, killed the lady who had just given birth to a child. Examination disclosed that she had been murdered, and the woman was arrested.

SAN FRANCISCO, May 16.—The Pacific Mail Company have sold the first steamer City of San Francisco, to unknown parties. She sailed from here in a regular mail, on Monday, and is expected to be delivered to Russia on the way to the South Pacific, after arrival at Sydney.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

London, May 15.—A Vienna correspondent says the latest telegrams state that the insurgents occupy two Balkan passes.
 A Vienna telegram says:—It is said the Russians are throwing up entrenchments near San Stefano, and among them with Krupp guns, which does not look as though they be involved in the speedy success of the negotiations.

A St. Petersburg correspondent reports that the Scheremetevs have been interviewed with those directing foreign affairs. He leaves towards the middle of the week, and will probably arrive in London on Tuesday.
 The statement yesterday of Prince Arzberg and Herr Tass in the Austrian Reichsrath and Hungarian Diet respectively are well received in Vienna, and make a very favorable impression in London. It is believed they indicate beyond doubt Austria's intention to oppose Russia, so that if England is compelled to go to war also will be necessary, and more circumstances than were recently hoped. It is also believed that Austria's attitude at this moment will have a favorable influence on the negotiations at St. Petersburg. Herr Tass, the Hungarian Premier, in the course of his speech said the Government had no intention to act against, but rather in concert with, Turkey in the Balkan Peninsula, and he could not in detail what they wanted the money for, but he might state broadly that it was necessary to secure the frontiers on the northern, southern, and eastern frontiers, and to increase the number of troops, so as to be safe against any surprise. A part of the money has already been used, and more measures necessary to secure the Carpathian passes are already in hand. Regarding affairs in Romania, Herr Tass said the reports were rather exaggerated, but he did think it necessary to take precautions in Transylvania. It is expected that the money will be voted in the Reichsrath by about fifty majority, and that the matter will be settled. The delegations will meet about the 20th instant to discuss the Imperial budget, when Count Arzberg will make a further statement of his policy.

AFTERNOON DISPATCHES.

London, May 16.—Tattersall & Co., wool and cloth merchants, have failed. Liabilities £29,000.

BEFIM, May 16.—Disputing accounts have been received from St. Petersburg. The prospect is again threatening. The Panislavic party are once more gaining the ascendancy.

MARCHESTER, May 16.—A strong impression prevails that recent outrages attributed to striking cotton operatives perpetrated by the lower portion of Blackburn, who are notorious for ruffianism.

LONDON, May 16.—A despatch from St. Petersburg says the Russian papers are full of news about the volunteers. Subscriptions for fitting it out are coming in from all parts of Russia. The sums raised seem very small for the purpose, but they are double the amounts contributed from the same sources to the Crimean Committee for the relief of the sick and wounded during war.

AMERICAN DISPATCHES.

BELLEVILLE, TUESDAY, MAY 21.

City and Vicinity.

ARRIVED.—The S. S. Peruvian passed
Fox River at 10:30 a. m. inward.

SAV LOGS.—The logs are arriving more
rapidly than they are wanted. The river is
now filled with logs as far north as
Pringle's factory.

A LARGE PUNISHMENT.—An interesting
article under the above title, appearing on the
first page of this day's issue.

BROOK.—Another heavy thunder storm
passed over the city last night. The present
month of May will long be memorable for
the unusually great number of thunder
storms which have taken place during the
current.

OUTRAGE BY TRAIN.—We are informed
that on Sunday morning, a freight train
on its way west was stopped by nine tramps
at a short distance west of Belleville. Several
of the windows in the van were broken,
and information of the outrage was sent to
the Belleville police.

NEW LOGGING.—Nineteen tramps were
observed to leave an empty car on the
siding below the station on Sunday morn-
ing. They had conducted their work dur-
ing the night, and it is probable that
empty cars are favorite resorts of tramps,
hence the small number who now seek
lodgings at the police station.

REMARKED.—James McLaughlin, charged
with murder, was yesterday remanded for a
week, after a portion of the evidence in the
case was heard. The reason of this was
that the jury was not considered to be out of
doubt.

OPERA HOUSE.—"A Celebrated Case,"
the latest dramatic sensation in New York,
is to be presented at the Opera House on
Thursday and Friday evenings by Miss
Florence Louisa Stratton and the celebrated
New York Theatre Company.

NEW YACHT.—Mr. John Addison launched
this morning his new yacht the "Minnie"
J., which he built during the winter. This
yacht is a small built, 16 ft. 2 in. beam,
21 ft. keel, and measures under 5 tons.
She is strongly put together, is of neat
model, and promises to sail fast. It is quite
probable that she will be fitted out in time
to take part in the race on the 24th. The
yacht is highly creditable to her builder
and designer, and will form a very desirable
addition to the third class fleet of the
R. Y. C. Y.

POSTPONEMENT.—The rain last night caused
the postponement of the public meeting for
the consideration of the celebration of date
incorporation. Only some half-dozen rat-
ifiers, besides the Mayor, heeded the notice,
and it was decided to postpone the
meeting until tomorrow (Wednesday) night.
As it now turns out, it might have been
better for the City Council to have assumed
full responsibility and proceeded to make
the necessary arrangements. The people
would have sustained them in incurring
any reasonable expenditure.

CORPORATION BUSINESS.—The public
Works Committee advised for tender for
the supply of 150,000 feet of lumber and
scantling, cedar siding, and four tons of
cut nails. They also ask for tenders for
the grading and graveling of Hotel Street,
from Foster Avenue to McDonald Street,
and for the graveling of Yonkers Street,
from Meigs to North Bridge Street. Ten-
ders are to be addressed to Mr. R. S. Pat-
erson, Chairman of the Committee, and
will be received up to Wednesday night.
Particulars are contained in the advertise-
ment.

SHARPO'S WIFE.—Mrs. John Shannon,
the wife of the teacher now in jail for
shootings Miss Wynn, writes a letter to
the Campbellford Herald in which, besides
ascribing the fact of her marriage to him,
she tells a story of his desertion of her.
The letter concludes:—"It appears to me
that my husband is trying to gloss over his
crime by rilying me, and saying that I
am not his wife. I defy him to prove it,
unless he was married before and his for-
mer wife is still living; in that case he
will prove himself both a bigamist and per-
jurer. I married and lived with him in
good faith. This is the plain truth, every
word of which is as substantiated."

THE TWENTY-FOURTH.—The coming an-
niversary of the birthday of Queen Vic-
toria, which is of all holidays the most
popular amongst the laity population of
the Dominion, will be celebrated here with
the usual enthusiasm. The military will
march, turn out as usual, and a few de-
jole of maroons will, in addition to the dis-
charge of rifles, be fired at noon.

TRAMPS.—A Brighton dispatch says:—
"To-day a number of hard-looking tramps,
supposed to be Penians, were observed
loitering around the woods and Grand
Trunk Railway station at St. Catharines.
The villagers turned out, and after a hard
and long chase, succeeded in capturing seven
or eight of them, who were brought
before Mr. T. Webb, Reeve of this village,
who questioned them separately, but could
not elicit anything more than that they
were looking for work. They were allowed
to go on the promise that they would leave
these parts. Considerable excitement pre-
vailed."

A meeting of the quarterly official board of
the United Methodist Church in this place,
was held here on the 19th inst. The
church members were found to be satisfactory,
both as to finances and other matters, for
which the members are to be congratulated.
For while many circles are suffering from
the minister's salary (more the shame and pity),
the church here has not only paid the salary,
but has also paid the salary of the minister.
The salary of the minister is a very poor thing,
in a satisfactory. Great respect was ex-
pressed at near approach of the time
when their minister would be
according to church discipline, have to
leave them. Three years ago he and his
family came here almost strangers, and
during that time have endeavored to be
helpful to the church. He is now a resident
of this place. He is now a resident of this

A meeting of the quarterly official board of
the United Methodist Church in this place,
was held here on the 19th inst. The
church members were found to be satisfactory,
both as to finances and other matters, for
which the members are to be congratulated.
For while many circles are suffering from
the minister's salary (more the shame and pity),
the church here has not only paid the salary,
but has also paid the salary of the minister.
The salary of the minister is a very poor thing,
in a satisfactory. Great respect was ex-
pressed at near approach of the time
when their minister would be
according to church discipline, have to
leave them. Three years ago he and his
family came here almost strangers, and
during that time have endeavored to be
helpful to the church. He is now a resident
of this place. He is now a resident of this
place. He is now a resident of this place.

Cultivation of Plants.

In order to obtain good plants, especially

those for the vegetable garden, it is absolutely

necessary to raise them from seed.

For those offered for sale in the market are

grown for sale, and are either healthy or

suffering from some disease or insect pest.

In the latter case, the plants are not fit for

seed propagation, and the purchase of

plants becomes unavoidable, the following

instructions will be found valuable.

THE SHAPE OF GOOD PLANTS.

Select those that have short, robust

stems, long and slender under the leaves,

that the plants have been rapidly forced

by artificial heat, or were grown too close

together, in which case the sides and under-

growth have been excluded from the light

and air, and the plants have, as it were,

stretched their necks in their efforts to reach

the light. If a plant has a small amount

of root in proportion to the foliage, it is

weakly from having been forced too quickly

or under too great a heat. The more root

the stronger and greater the growing capacity

of the plant. If the leaves are of a

yellow cast it may occur from an unhealthy

condition, caused, in all probability, from

having been recently taken from the

beds, or from having been taken from the

beds, or from having been taken from the

beds, or from having been taken from the

ROYAL Daily Intelligencer.
Major Walsh.

First Decade of the Dominion. In the current number of the leading organ of English Non-conformity, the British Quarterly Review, for May, is an article on "The First Ten Years of the Canadian Dominion," in which the writer, though a liberal of the Liberal, and a friend of the Liberal, shows that he thoroughly appreciates the unpopularity of the Liberal Government, and the necessity of a new Government. The article is a very able and interesting one, and is well worth reading.

Major Walsh, of the Northern Mounted Police, is a French boy. He was born in 1842, and is of Irish parentage. At school young Walsh was chiefly noted for being at the foot of the class, except when geography was the study in class, he would be at the top of the class. He was a very good student, and was a very good student. He was a very good student, and was a very good student.

Daily Intelligencer.

BELLEVILLE, FRIDAY, MAY 31.
City and Vicinity.

Opera House.—Mr. Brent will take his
benefit tonight, when the favorite drama
"Uncle Tom's Cabin" will be produced.

City Council.—A special meeting of the
City Council will be held on Monday evening,
to arrange for the Dominion Day celebra-
tion.

Fishing.—Anglers are having fine sport
on the bay daily, as fish are very plentiful
and fish freely. Of course black bass are
caught at this period, as they are not
biting during the close time.

Disposition.—The notorious Bridget
Clapper and her interesting progeny, who
have been for some time a public nuisance,
have been deported from the city. They
left town per steamer Hastings this morn-
ing.

Yacht Race at Harwood.—The yacht
race at Harwood, Race Lake, on the 24th
was won by the *Fiducia*, the five ton
boat recently built at Trenton by Cuthbert.
She sailed under a cat rig, carrying the
mainmast under the *Surprise* formerly
sailed.

For the Old Country.—Thos. Walker,
Esq., ex-Warden of the County of Hastings,
left to-day by rail for Great Britain and
the Continent. He expects to be ab-
sent about three months. We wish him
bon voyage, and a safe return.

Grangers' Pic-Nic.—The Grangers of
Hastings, Prince Edward and Lennox will
hold their annual picnic to-morrow at a
grove within a short distance of Napoleon.
The steamer *Hastings* will convey the ex-
ecutives from Belleville and ports en route
to Napoleon. It seems probable that the
party will be a numerous one.

The Fireworks.—Another company of
the 15th Artillery Light Infantry has been
formed under the command of Captain
Henry Blocker, in lieu of No. 4 Company
from Tyndinburg, we believe. The next
monthly parade of the Battalion will take
place on Monday evening, June 10th.

For Europe.—Mr. O. E. Henderson,
Q. C. and his son Mr. F. O. A. Henderson;
Thos. Walker, Esq., ex-Warden of the
County, and two young ladies, nieces of
A. Walters, Esq., harbor master, will sail to-
day for Quebec, whence they will sail to-
morrow for Europe. We hope that all may
have a pleasant trip.

Marine.—The steamer *Kingsbridge* left
to-day for Oswego, with a cargo composed
of lumber and fuel. The schooner *Kate* is
still docked here, waiting for cargo.
The *Merry Foe* is now down at the inland
for repairs. The tug *Bonar* and *Sherrard*
left last night for Trenton and Mill Point
respectively with loads of saw logs.

Bruce's Sport.—A number of men
and boys amused themselves on Front
Street and the market this morning by
setting loose some young foxes and chasing
the miserable denizens of the woods with a
motley lot of curs of all kinds. Such "sport"
is highly censurable and ought to be put a
stop to, as it entailed not only cruelty to
animals but caused not a little disturbance
on the public streets.

Death to the Cerebrum.—We are in-
formed that if a small quantity of salt is
sprinkled under the plum tree just as the
fruit is forming, it will kill the cerebrium and
prevent the young plums from being stung.
The same person says wood-ashes spread un-
derneath the plum tree will also drive the
cureless away. He applies both of these
remedies, and always has nice smooth
plums and a beautiful crop. Perhaps both
are effective; the ashes will, at least, pre-
vent a vigorous growth, and the salt can
do no harm if it is used sparingly.

Salt Accident.—A sad accident hap-
pened on Tuesday, 29th inst., to a small boy
named John, the Barnhart about 16 years
of age, a protégé of Mr. Smith Finkle, liv-
ing near Frankford, from the Marchmont
House. The boy was sent to the field to
catch the horses on the farm, when, while
catching the horses, the boy fell, and, while
he was recovering, he was struck by a horse,
which he found him, and he was killed by
one of the horses. He was at once re-
moved to the house and every effort was
made for his recovery, but without avail, as
he died on Wednesday morning. The boy
was highly thought of by Mr. Finkle.

"THE PARISH GUIDE."—This is the
title of an eight page monthly, which will
be issued hereafter in the interest of the
parish of Christ Church and St. George's.
The first number, which has just been
published, contains a considerable amount of
well written original matter and some ex-
cellent selections. Its tone is strongly
Protestant, contrasting favorably with the
Ritualistic attitude of so many of the Angli-
can publications. The Guide, which is printed
in the INTELLIGENCER job room, is very

neatly got up, and its typography is clear
and excellent. First copies are to be had
at Harrison's and Greville's book stores, or
from the agent, Mr. Dutcher, sexton.

DELEGATES.—Messrs. Wm. Anderson,
Grand Treasurer; Wm. White, Grand
Director of Ceremonies; Robert Gordon,
Grand Master South Hastings; James A.
Orr, of the *Marine*, *Frederick*, and *St. John's*,
number of delegates from the west to
train to-day for St. John, N. B., whether
they go to attend the meeting of the Grand
Orange Lodge of British America.

Fire.—At about 12:30 to-day fire caught
the roof of McCarra's planing mill from
smoke. The fire was at once given, and
measurably persons on the spot fought
the flames with pails of water. The chemi-
cal engine soon arrived, and assisted by the
hook and ladder company, which quickly
followed, soon had the fire under control,
and put it out without needing assistance
from the steamers, which were ready to
work, however. The loss is slight. No
injuries.

GROSS CARELESSNESS.—We have on vari-
ous occasions condemned the practice, which
is so prevalent among the city firemen, of
running the hose carts and chemical en-
gines upon the sidewalks. Several acci-
dents to persons and property have re-
sulted from this censurable practice, and
still another accident occurred to-day.
Charles Abrahamson, young man, was knock-
ed down and run over by the chemical en-
gine to-day noon, his injuries being as
serious as that he had to be taken home in a
cab. This Francis had the part of the
men is all very well and highly commendable,
but at the same time the sidewalks are
not the proper place for their apparatus,
and we call upon the Fire Committee to
put a stop to the practice at once for ever.

Quota.—The following appears in the *Globe*
of the 29th inst.: "A Port Hope corres-
pondent expresses his views as follows on the
subject of the date of the annual champion-
ship tournament.—Last year, through the
slovenliness of the committee, I understood an
account of a quelling tournament for the champion-
ship of the Dominion, which took place last fall.
This tournament was got up by some parties
in Toronto, who anticipated it would be a
year's contest. In view of its being a year's
contest, permit me to inform the directors of
the tournament that if it is held at the time it
was last year certain gentlemen are entirely
cut out from competing. I refer to the
teachers. Many of our teachers are excellent
players—perhaps the best in the Dominion.
Their sedentary life requires outdoor exercise
and many of them practice quelling pitch-
ing, which is not a healthy outdoor
pastime, not being so violent as baseball or
cricket, yet bringing every muscle of the body
into active play. To merchants, mechanics,
farmers, &c., who practice quelling playing it
makes little difference when the tournament
takes place, for they can easily make arrange-
ments to attend. Teachers cannot; they are
bound to time by law, and can only attend
during their holidays, which commence about
the 8th of July. Last fall while travelling in
the Ottawa district I met with a teacher (an
excellent player) who informed me that he and
others in his craft could have served in the
tournament had it been held during the
holidays. I hope the directors of the tourna-
ment will kindly take the matter into con-
sideration, and will not insist that the
tournament be held during the school holidays,
thereby giving a fair chance to all quelling players to com-
pete." "We should like to see some of the
teachers in Belleville follow the example of
their brethren in the York County, and
practice quelling by practicing quelling pitch-
ing, which is not a healthy outdoor
pastime, not being so violent as baseball or
cricket, yet bringing every muscle of the body
into active play. To merchants, mechanics,
